Critical Illness Insurance

# SUMMARY OF BENEFITS

## Milhaus SRG

**Coverage Effective 1/1/2027**

## Why Is Critical Illness Insurance Important?

A serious illness can impact more than just your health; it can affect your financial stability as well. With travel expenses, rising copays, premiums, and deductibles, health coverage can be expensive. Critical Illness provides you with a lump-sum payment to help cover costs that your health insurance doesn't pay for, so you can focus on your recovery.

## What does Critical Insurance cover?

Critical Illness provides a cash benefit directly to you, if you're diagnosed with a covered illness or condition on or after your effective date of coverage for illnesses and conditions like heart attacks, strokes, and cancer. For a complete list of covered illnesses and conditions, review your plan details. This coverage is not medical insurance and does not reimburse medical expenses. It does not replace health insurance or pay providers directly for medical care.
